

C1  
08/861,457. Application serial no. 09/956,806, filed on September 21, 2001, is also a  
continuation of reissue application serial no. 08/861,457. All of the above applications are  
reissue applications of original U.S. Patent 5,462,120, application No. 07/814,585, filed  
December 30, 1991.

### REMARKS

Applicant files this Amendment in response to the Office Action mailed on February 25, 2003. Applicant has not added, amended, or cancelled any claims in this Amendment. Accordingly, the status of all claimed in this application is that claims 1-7 have been cancelled and claims 8-104 are pending.

In the Office Action of February 28, 2003, the Examiner rejected claims 8-104, under the judicially created doctrine of obviousness-type double patenting, as being unpatentable over claims 1-7 of U.S. Patent No. RE37867. Without agreeing with that rejection, Applicant submits herewith a Terminal Disclaimer in compliance with 37 C.F.R. § 1.321(c) regarding the above-identified application and U.S. Patent No. RE37,867, and respectfully requests withdrawal of the rejection.

In the outstanding Office Action, the Examiner also objected to the specification based on an informality. Applicant has amended the specification as suggested by the Examiner and requests withdrawal of the objection.

The Examiner did not approve the drawings filed on October 28, 2002, because Figures 4 and 10 were not labeled --AMENDED--. Applicant submits herewith a Supplemental Submission of Formal Drawings with Figs. 1-13, with the label --AMENDED-- added to Figs. 4 and 10 as suggested by the Examiner. Accordingly, Applicant respectfully requests approval of the drawings.
